4. Writing

Time: 30 minutes

Imagine that you have been invited by the Students Union of Birmingham University to write an article for Students' Magazine. You have been asked to encourage British students to learn one of the languages of the Russian Federation.

Your article should start with the words

I think that the future of our world is in the hands of foreign language teachers, translators and interpreters...

Your article should end with the words:

...and I wish the whole world went on studying Russia not as a potential enemy but as a real friend.

You have to write about 200 words.

I think that the future of our world is in the hands of foreign language teachers, translators and interpreters. You may ask „Why? Why it is so important to know foreign languages?“ Well, I can answer why I think so. Just think for a moment how many information you ~~can~~ take from news, newspapers, Internet. I think you often hear something about Russia like that Russian army ~~entered~~ entered into Ukraine and that Russia is aggressor and you should be afraid of it. What will you say if I'll tell you that it is all „fake news“. You will understand it if you will take information from the first hands in original language. If you will learn Russian language you will find that we are not so angry as you may thought.

Another reason why I think that our future is in hand of foreign language teachers & translators because there is no human ^{in the world} that knows every language and presidents of big countries are not exception.
